- Custom Made to fit your needs
- Short turn around time on special orders

Thousands of satisfied customers!

"There are a couple of things I like about these valves:

- (1) They don't collect any trash because the gate runs up and down, not horizontal like a butterfly valve, and
- (2) they stand upright so they are easy to adjust."

~ Clifford Hinton, Jerome

Built with Pride Since 1986

18" PIP & LARGER NAVIGATOR VALVE

with an extended handle for buried application, which comes standard with a Hand wheel Lift Assembly for fine adjustments of the gate.

This style of valve is especially liked by the Dairy and Hog Industry for Waste

Water Management, because when open there is no mechanism to catch trash and is economical.

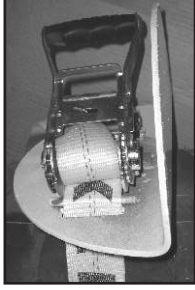

THE KLEAT

Does your pivot get stuck?

The KLEAT is your answer.
